PERSONAL INFO

I'm a 16-year-old self-taught technologist and creative problem solver with hands-on experience in AI, automation, cybersecurity, theoretical physics, and full-stack development.

I've built advanced systems ranging from intelligent assistants and YouTube automation tools to time machine simulations and weather control drones.

EDUCATION

INTERMEDIATE (After 10th) (PRESENT)
SRI CHAITANYA
2024

Before 10th
KKR GOWTHAM (ANANDAPURAM)
2022-2024

SKILLS

- Artificial Intelligence (AI)
- Automation Scripts
- Cybersecurity & Penetration Testing
- Full Stack Web development
- Theoretical Physics Simulation
- AI Model Integration (GPT, Gemini, Mistral)

EXPERIENCE

Independent Technologist & Developer   **2024 – Present**

- **Built over 15+ original projects including AI assistants (JARVIS, Marvin), YouTube automation tools, and a time machine simulation.**
- **Developed full-stack applications integrating GPT, Gemini, Mistral, and voice AI.**
- **Theoretical Physics under name alias 'anony45-everywhere'**
- **Featured on GitHub Trending; contacted by Chai Research, Divyansh Shukla, and Dr. Nishant Sahdev for collaborations and feedback.**
- **Created automation tools for Gmail cleanup, AI shopping, and YouTube thumbnail generation in a single day.**

NFT-AI Collaboration (Marvin Project)
With Michael Briffa & Jake Ciantar | Apr 2025 – Present

- **Rebranded and integrated personal AI assistant into NFT ecosystems under the name Marvin.**
- **Negotiated partnership deal: 15% of all NFT sales, 10% recurring royalties.**
